Welcome to the Class Editor

This tools allows to work on the classes on your wiki. Before working on the classes, you should read the [developer's guide](#)

Create a new Class

To create a new class you must first choose the name of your class and click on the button "Create this Class". This will automatically create a document for you class and redirect you to this document where you will be able to follow the instructions to make your class usable.

Choose a simple name like 'Film', 'Book', 'Article'. XWiki will append 'Class' at the end automatically.
